REPORT TO THE BOARD OF FIRE AND POLICE PENSION COMMISSIONERS

DATE: JANUARY 15, 2026 **ITEM:** E.3

FROM: JOSEPH SALAZAR, GENERAL MANAGER

SUBJECT: SECOND QUARTER REPORT OF THE 2025-26 ANNUAL PLAN AND POSSIBLE BOARD ACTION

RECOMMENDATION

That the Board authorize technical corrections to the 2025-26 Annual Plan to more accurately reflect the Project Leads for Operational Initiatives Projects No. 2 and No. 5.

BACKGROUND

The 2025-26 Annual Plan was approved by the Board on June 18, 2025, and includes a total of eight projects, of which three are Strategic Goal Projects and five are Operational Initiatives Projects.

LAFPP's current Vision, Mission, Strategic Goals, Guiding Principles, and Values are provided on page one of the 2025-26 Annual Plan (Attachment II). A summary of the eight projects included in the Annual Plan is provided on pages two and three of Attachment II. Six of the projects are newly added, while two are continuing from the 2024-25 Annual Plan.

PROJECTS ON SCHEDULE AND ON BUDGET

Staff is providing the second quarter report on the status and progress of the 2025-26 Annual Plan projects (Attachments I and II). As reflected in Attachment I, all projects are on schedule and on budget. Additionally, Attachment II includes two technical corrections to reflect updates in the Project Leads' civil service job titles (changes appear in red font for Operational Initiatives Projects Nos. 2 and 5).

Strategic Goal Project No. 1 – Member Feedback

Staff completed the review and analysis of the 3,606 member survey responses collected in Fiscal Year 2024-25. A summary of the survey findings was presented to the Board on December 18, 2025. Currently, staff are preparing to convene a focus group to discuss and identify potential process improvements for implementation based on the survey feedback.

Strategic Goal Project No. 2 – Emerging Manager Outreach

Investments Division staff co-hosted the Emerging Manager Networking Forum (EMNF) with the Los Angeles City Employees' Retirement System (LACERS). Staff coordinated with various emerging manager organizations, news outlets, and consulting firms to promote the event. The broad marketing campaign drew 138 interested firms to apply for one-on-one meeting slots.

The EMNF itself served as both an educational and networking event, featuring two panel discussions on public and private market investments with the two Plans' consultants, as well as one-on-one meetings with the two Plans' investment staff, and general networking. Forty-eight (48) managers attended the event, with 19 firms randomly selected for one-on-one meeting slots. A total of 33 firms were in attendance, with seven based in the City of Los Angeles. The event received very positive feedback from attendees.

Additionally, at the December 18, 2025 Board meeting, Investments Division staff presented revisions to Board Investment Policies Section 1.5, renamed from "Board Member and Staff Referral Restrictions for Potential New Investments" to "Board Member and Staff Referral Process for Potential New Private Market Fund Investments" as part of the Board's Annual Investment Policies Review. The Board approved the updated policy section.

Strategic Goal Project No. 3 – Mentorship Program

In October 2025, LAFPP hosted an in-person Mentoring Open House to educate employees on the benefits of mentoring, the LAFPP Mentoring Program's structure, and expected commitment and participation levels for mentees. The event, which was mandatory for participation, attracted 46 employees. Following the event, the mentorship application was distributed to all staff and eight applications were received during the three-week application period. Executive Management has identified mentors for each applicant. Training for the selected mentors will occur in January 2026 and mentorship pairings will begin meeting shortly thereafter. As such, the implementation of this project is approximately two months ahead of schedule.

Operational Initiatives Project No. 1 – Popular Annual Report

Communications and Education Section staff have received the documents required (i.e., Annual Actuarial Valuation, Department-wide contributions, etc.) to compose the Comprehensive Annual Report (CAR) and are in the process of preparing said report. Staff have also begun to input the actual figures into the first draft of the Popular Annual Report (PAR) to prepare for eventual posting on LAFPP's website by the March 31, 2026 milestone date. Staff also established the PAR theme (e.g., color scheme, pictures, etc.) and are awaiting the finalized CAR from the graphics designer to provide the full layout and style.

Operational Initiatives Project No. 2 – Elimination of the Attained Age Database

On November 18, 2025, Systems staff, on behalf of the Medical and Dental Benefits Section, received a quote from Neumo, our pension administration system consultant, estimating the number of work hours required to implement the specified changes into the Pension and Retirement Information System (PARIS). Initially, this project was thought to require a significant number of work hours, resulting in a change order. However, Neumo confirmed their ability to adjust the desired functionality and correspondence requirements using pre-existing contract hours, thereby eliminating the need for a change order.

Operational Initiatives Project No. 3 – Web-Based Contractor Disclosure Form

Internal Audit Section (IAS) staff conducted an education campaign on the upcoming transition for current contractors and LAFPP section managers who manage active contracts. The campaign concluded in December 2025. IAS also finalized both the Contractor Disclosure Webform (CDW) and Annual Gift Disclosure Webform (AGDW), by adding descriptive links to resource materials, clarifying instructions, and allowing contractors to submit forms directly online. Both the AGDW and CDW were made available to contractors on December 31, 2025. IAS had implemented a pilot program for the CDW during the previous quarterly filing period, with participants providing positive

comments and feedback. For the quarter, 16 of 95 total contractors participated in the pilot program. IAS staff also continued to establish baseline benchmarks by tracking the time required to receive and process CDW forms.

Operational Initiatives Project No. 4 – Review and Update of the Los Angeles Administrative Code for LAFPP Board Elections

Administrative Services and Human Resources Section staff developed a comprehensive matrix outlining all proposed changes to the Los Angeles Administrative Code (LAAC) sections governing LAFPP retired and employee Board member elections. These edits were incorporated into tracked-changes versions of the LAAC and reviewed by the Office of the City Attorney and City Clerk. On December 18, 2025, staff presented the proposed revisions to the Board for approval. The Board approved the proposed LAAC revisions with no changes. As such, LAFPP will be submitting the proposed LAAC revisions to the City Council for consideration and approval ahead of the Third Quarter Project Milestone.

Operational Initiatives Project No. 5 – Artificial Intelligence (AI)-Powered Reference Tool

Disability Pensions Section and Systems Section staff collaborated with Microsoft Unified Support to evaluate platforms and services best suited to support the development of an AI-powered reference tool within LAFPP's existing network infrastructure. Based on the project's objectives, deliverables, and compatibility within our existing infrastructure, Microsoft Copilot Agent (MCA) was selected. Systems Section staff is currently working with Microsoft to configure the MCA within the existing infrastructure.

As of December 2025, the project has received official approval from the City's Information Technology Agency regarding compliance with its AI Safety Checklist. Pending MCA integration into LAFPP's existing infrastructure, Disability Pensions Section staff will begin data source research, evaluation, and validation for the AI tool.

BUDGET

Funding for the proposed projects has been included in the 2025-26 Adopted Budget.

POLICY

There are no policy changes proposed in this report.

With preparation of the Annual Plan, LAFPP strives to fulfill our Vision and support our Mission as outlined in the 2025-27 Three-Year Strategic Plan. The 2025-27 Three-Year Strategic Plan was developed with input from the Board, the General Manager, our Plan member representatives, and LAFPP staff. This collaborative effort resulted in a new framework in which six prior Goals, Objectives, and Strategic Initiatives were retitled as "Guiding Principles" to reflect their role as a driving force behind every action we take as an organization. The new strategic planning framework additionally created three new Strategic Goals designed to set a destination toward which LAFPP will navigate and focus its resources.

Strategic Goals

1. Enhance Member Experience by Implementing Ongoing Improvements Based on Member Feedback
2. Enhance Outreach by Promoting Inclusivity and Engagement with Emerging Investment Managers
3. Enhance Employee Development by Increasing Opportunities for Training and Leadership Development

2025-26 DELIVERABLES

This project seeks to implement a three-month mentorship pilot program. At the conclusion of the pilot, the mentor and mentee can opt to extend the program for an additional three months or longer. Potential mentees will be required to attend a mandatory open house and complete a survey, which will require them to identify personal goals and areas of employee development. Mentors will be identified based on the results of these surveys and will work with the mentee to develop a mentorship plan. Stakeholders: Medical and Dental Benefits staff, Systems staff, and LAFPP Members

OBJECTIVE

To retire the Attained Age Database by integrating its functionality and correspondence into the Pension Administration System (PARIS).

BACKGROUND

The Attained Age Database is used to track the Medicare status of LAFPP pensioners and generate correspondence to members nearing Medicare and/or subsidy eligibility age. A monthly listing from PARIS is needed to update the database to generate Attained Age correspondence to pensioners. This listing and database maintenance requires resources from Systems staff.

2025-26 DELIVERABLES

Operational Initiatives Project #3

Web-Based Contractor Disclosure Form

Guiding Principle No.: 4 – Pursue Operational Efficiencies
Duration: 2025-26
Project Lead(s): Jennifer Van, Internal Auditor IV, Internal Audit Section
 Christian Torres, Internal Auditor II, Internal Audit Section
Project Participants: Internal Audit staff and LAFPP staff
Stakeholders: Board Members, Senior Management, Contractors, and Consultants

OBJECTIVE

To optimize the Contractor Disclosure Reporting Form that currently relies on substantial manual interventions from contractors, Internal Audit staff, and department staff to report, collect, and compile needed information.

BACKGROUND

The current Contractor Disclosure process requires substantial manual interventions from contractors, Internal Audit Section (IAS) staff, and Department staff to complete. This can result in time-consuming back and forth communications, potential errors, and the need for extensive review to compile and analyze responses. This project seeks to optimize this process by using a web-based form that's easy to read and retrieve, that can automate manual processes, incorporate proactive data validation, and enhance the user experience for department contractors.

2025-26 DELIVERABLES

IAS staff will leverage an available JotForm enterprise license to develop, test, and implement a web-based form that strives to streamline the submission and intake processes for quarterly and annual Contractor Disclosure requirements. IAS staff will also explore features available through JotForm to improve the analysis and maintenance of Contractor Disclosure compliance data. These efforts seek to automate the most manual procedures in the Contractor Disclosure process, freeing up staff time and improving the user experience for department contractors required to comply with the policy. IAS staff will also work with the Communications and Education Section staff to create a centralized Contractor Disclosure subpage on LAFPP's website containing the Contractor Disclosure Policy and other resources.

2025-26 MILESTONES

BY SEPTEMBER 30, 2025:

- a) Track staff time to receive, process, and analyze required filings using current method of compliance reporting to establish a benchmark;

- d) Prepare a draft template and method of analysis for the annual gift form in place for testing for the Contractor Disclosure Q4 (ending December 31, 2025) reporting period; and,
- e) Work with Communications and Education Section staff to create a sub-page on the LAFPP website centralizing the Contractor Disclosure Policy.

BY DECEMBER 31, 2025:

Operational Initiatives Project #4

Review and Update of the Los Angeles Administrative Code for LAFPP Board Elections

<i>Guiding Principle No.:</i>	4 – Pursue Operational Efficiencies
<i>Duration:</i>	2025-26
<i>Project Lead(s):</i>	JC De La Cruz, Management Analyst, Administrative Services and Human Resources Section Brandon Chung, Management Assistant, Administrative Services and Human Resources Section
<i>Project Participants:</i>	Administrative Services and Human Resources Section, Pensions Division staff, Office of the City Attorney staff, Office of the City Clerk – Election Division staff, and Personnel Department staff
<i>Stakeholders:</i>	Board Members and LAFPP Members

OBJECTIVE

To update the Los Angeles Administrative Code (LAAC) Division 23, Chapter 5, Articles 5 and 5.5, as well as the Board Operating Policies and Procedures Section 6.0, which govern the administration of the elections for the Board of Fire and Police Pension Commissioners' (Board) four elected commissioner seats.

BACKGROUND

Los Angeles Fire and Police Pensions (LAFPP) conducts elections for Employee and Retired Members of the Board in accordance with the City Charter, LAAC, and Board Operating Policies and Procedures. The LAAC governing Employee Members was codified in 1972 and updated in 1995, 2000, and 2017, while the LAAC for Retired Members was codified in 2000 and updated in 2004 and 2017. The 2017 revisions standardized the processes for both groups, which until that time lacked uniformity due to their separate development timelines. Board elections are currently administered under this version of the LAAC.

In 2020, the COVID-19 Pandemic disrupted LAFPP's election administration process in unforeseen ways, requiring immediate procedural adaptations not considered in the 2017 LAAC revision. Various procedures originally designed for in-person interactions among LAFPP staff, City staff, and LAFPP members had to be quickly transitioned to virtual alternatives. Additionally, operational changes implemented by our partner City agencies in response to the pandemic, as well as implementation of a new Citywide payroll system, led to compressed election timelines, reducing flexibility in election administration.

Operational Initiatives Project #4

Review and Update of the Los Angeles Administrative Code for LAFPP Board Elections

2025-26 DELIVERABLES

The updated LAAC, if adopted by the City Council, will align with election procedures adopted and continued since the COVID-19 Pandemic. Additionally, the election timeline will be adjusted to reflect post-pandemic operational changes and provide staff and the Board with greater flexibility in administering Board elections.

Operational Initiatives Project #5

Artificial Intelligence-Powered Reference Tool

Guiding Principle No.: 4 – Pursue Operational Efficiencies
Duration: 2025-26
Project Lead(s): Timothy Morita, Senior Benefits Analyst I, Disability Pensions Section
 Kyle Susswain, Senior Benefits Analyst II, Disability Pensions Section
 Stevie De Jong, Senior **Management Benefits** Analyst I, Disability Pensions Section
Project Participants: Disability Pensions staff, and Systems staff
Stakeholders: LAFPP Members, Disability Pensions staff, and Pensions Division staff

OBJECTIVE

To accelerate training and ensure knowledge transfer of Disability Pension-specific references (e.g., City Charter, Los Angeles Administrative Code, Summary Plan Descriptions, etc.) and guides through Artificial Intelligence (AI)-powered learning tools.

BACKGROUND

AI is transforming industries, including government operations, at an unprecedented pace. Staff plans to unlock AI potential through a pilot program to optimize internal operations, specifically enabling retrieval of information from consistent source documents, thereby increasing efficiency and productivity with regards to tasks and research. This project would also serve as a proof-of-concept to determine scalability for additional non-member-facing operations throughout the Pensions Division.

2025-26 DELIVERABLES

An AI-powered chat interface trained on publicly available, non-confidential data for use by Disability Pensions staff with consistent information retrieval and research functionality. The tool may also support additional tasks and capabilities as available. Once completed, other Pensions Division Sections will also be able to perform the same information retrieval and research.

2025-26 MILESTONES

BY SEPTEMBER 30, 2025:

- a) Assess LAFPP's current technology platform and systems to determine what solution is viable within our existing setup and capabilities; and,
- b) Obtain approval from the Information Technology Agency (ITA) and ensure compliance with the AI Safety Checklist, as required per Council File 23-1020 regarding safe facilitation of AI usage.
